

Basic Validation Training

For people who want to better communicate with older adults living with dementia.

Date & Time

Feb. 17, 24, March 3, 10 & 17
18:00 – 22:00 Israel time

Cost

\$ 500

Language

English

Learn how to use empathy and Validation techniques to enter the world of the disoriented very old person.

Validation, developed by Naomi Feil in the 1970s, is the original, evidence-based method for communicating with older adults living with dementia. It is taught in 13 countries by over 400 certified teachers.

Your Facilitator:

Nancy Brown, a Certified Validation Teacher since 2018, has assisted with online Validation courses including webinar series for the National Certification Council for Activity Professionals. For over 16 years, she has served as group supervisor in a therapeutic Day Center for persons with cognitive impairment. She is also a PhD candidate in Dementia studies at the University of Edinburgh.

Basic Validation training includes:

- ❑ 3 training sessions (four hours each)
- ❑ 2 supervision/coaching sessions (four hours each)

Participants Will:

- Learn specific Validation techniques to communicate
- Understand the various reasons for behavior of very old people living with dementia
- Experience the process of empathy and develop empathy with others
- Be able to connect with disoriented older adults easily and build positive relationships

The webinars are interactive and require participants to have hi-speed internet, a functioning camera, microphone and speakers. It will be held on Zoom video conferencing.
